

Green Valley has recently updated its Drought contingency Plan. As drought conditions in our region continue, the following will be in effect should Green Valley declare Water Restriction Stages. When this occurs notices will be posted on our website (www.gvsud.org), placed in local newspapers, and announced over local radio stations. Until then, we encourage all of our customers to practice year round conservation measures.

GVSUD Drought Contingency Plan Triggers and Response Stages

Watering Activity	Year Round	Stage 1 20% Reduction Trigger: EAA or GBRA announces Stage 1 initiation. J-17 at or below 660 ft, Comal Springs at or below 225 cfs, or San Marcos Springs at or below 96 cfs.	Stage 2 30% Reduction Trigger: EAA or GBRA announces Stage 2 initiation. J-17 at or below 650 ft, Comal Springs at or below 200 cfs, or San Marcos Springs at or below 80 cfs.	Stage 3 35% Reduction Trigger: EAA or GBRA announces Stage 3 initiation. J-17 at or below 640 ft. or Comal Springs at or below 150 cfs.	Stage 4 40% Reduction Trigger: EAA or GBRA announces Stage 4 initiation. J-17 at or below 630 ft. or Comal Springs at or below 100 cfs.
