

**Stage 1 Water Restrictions
Initiated by Green Valley Special Utility District
EFFECTIVE October 23, 2020**

General Manager, Pat Allen, has initiated Stage 1 Water Restrictions of the Green Valley Special Utility District (GVSUD) Drought Contingency Plan. GVSUD is requiring all customers to reduce water use by 20%.

During Stage 1 Water Restrictions customers are allowed to:

Sprinkler or irrigation systems may water two days per week

BEFORE 10 a.m. and AFTER 8 p.m.

Based on the last digit of the address:

Even numbers (0,2,4,6,8) – Watering days are Monday's and Thursday's.

Odd numbers (1,3,5,7,9) – Watering days are Tuesday's and Friday's.

Handheld hose, buckets, drip irrigation systems and soaker hose that do no spray water in the air are permitted any time.

All customers are requested to practice water conservation and discontinue all non-essential water uses.

If conditions persist, it may be necessary to move to Stage 2 Water Restrictions. Once Stage 2 is declared a notice will be posted to our website along with being mailed out with our next billing statement.

GVSUD will notify the local newspapers and radio stations should additional Water Restriction Stages be necessary.
